ISHA MULTISPECIALITY HOSPITAL

isha
Hospital
Multispeciality where Hope lives.

Isha Multispeciality Hospital is a 110 bed hospital in the city of Vadodara & one of its kind in Gujarat, especially in Obstetrics & Gynaecology, Infertility & IVF, Paediatrics & Neonatology, Minimum access Laparoscopic & Hysteroscopic surgery & Bariatric surgery, catering to everyone's health needs with state-of-art infrastructure and advanced technological equipment.

Our IVF department is poised with trained team of highly experienced Doctors, having 30 years of experience , andrologists, and nursing team, and a well equipped and sterile IVF lab. Our success rates matches with international success rates.

Isha Hospital happens to be the ONLY in GUJARAT, who had FIRST pioneered 3D Advance Karl Storz instruments and equipment for Laparoscopic and Hysteroscopic Surgeries with HD & 3D camera and high resolution monitors.

Isha hospital, is the only hospital in the town which offers genetic counseling, 1st trimester nuchal scan, Quadruple scan, malformation scan & growth scans with Color Doppler study. This study includes venous Doppler & fetal echocardiography in indicated cases. Genetic counseling is offered in case of inherited genetic disorders. Uterine artery Doppler study is done in first trimester & as and when required.

Currently the hospital uses E 10 version of ultrasound scanner with electronic volume probes with 4D function since the launch of this equipment by GE. The hospital is equipped with 7 ultrasound scanners.

Hospital is able to practice sound fetal medicine as it has the most advanced Neonatal Critical Care facility attached.
